

RATHIKA MARIYAPPASAMY

Frontend Developer

+91 82200 39195 rathikamariyappasamy@gmail.com
Madhavaram, Chennai

SUMMARY

Results-driven Front-End Developer with 5+ years of experience in building scalable and high-performance web applications using Angular. Skilled in developing responsive UI components, integrating REST APIs, and optimizing application performance. Strong experience working in Agile environments with a focus on delivering high-quality, user-centric solutions. Willing to Upskill.

PROFESSIONAL EXPERIENCE

- Application Development Senior Analyst

06/2025 - Present

Accenture

Chennai, India

 - Optimized application performance, reducing load time by up to 35%.
 - Implemented state management solutions (NgRx) for complex workflows
 - Conducted code reviews and enforced best practices across the team
 - Collaborated with cross-functional teams to deliver end-to-end solutions
 - Mentored junior developers and improved team productivity
 - Leveraged AI-assisted tools (e.g., GitHub Copilot) to accelerate UI development and improve efficiency
 - Utilized Copilot to generate Angular components and reduce development effort by 20-30%
 - Validated and refined AI-generated code to ensure quality, security, and maintainability
 - Worked within an Agile framework, delivering high quality code on time and consistently meeting project deadlines.
- Application Development Analyst

06/2023 - 05/2025

Accenture

Bangalore, India

 - Developed scalable single-page applications using Angular
 - Built reusable components and improved code maintainability by 30%
 - Integrated RESTful APIs and managed asynchronous operations using RxJS
 - Implemented lazy loading and performance optimization techniques
 - Conducted unit testing using Jasmine and Karma
 - Resolved production issues and ensured system stability
 - Collaborated with UI/UX teams to deliver user-friendly interfaces
- Application Development Associate

05/2021 - 05/2023

Accenture

Chennai, India

 - As a Frontend developer Associate, has worked on application enhancement like adding features, fixing bugs, etc.,
 - Developed, and code web applications for customer accounts, which includes debugging issues, diagnosing root causes, and identifying solutions.
 - Worked on high-quality HTML, CSS, and TypeScript code for dynamic web applications used by over 10,000 users.
 - Done bug fixes as part of application maintenance, where I have fixed more than a hundred bugs.
 - Fixed accessibility issues and SonarQube issues.

PROJECTS

- Project : Fleet Management System

 - Developed Angular-based UI with reusable components and REST API integration
 - Implemented dashboards for real-time equipment tracking and optimized performance
 - Utilized RxJS and GitHub Copilot to enhance responsiveness and development efficiency

EDUCATION

Bachelor of Technology in Information Technology
National Engineering College | 2017 - 2021

Key Skills

- Angular, TypeScript, JavaScript
- RxJS, REST API Integration
- HTML, CSS, Responsive UI
- Performance Optimization, Lazy Loading
- Git, GitHub Copilot
- Agile/Scrum

ACHIEVEMENTS

- Recognized for improving application performance and reducing defects
- Delivered results that consistently exceed expectations and add value to our Clients, Company, People & Community
- Recognized for commitment and contribution has given towards the project.
- Awarded for excellence in team collaboration and delivery
