

Sai Prakash Repaka

Azure DevOps Engineer

repakaprakash4@gmail.com | +91-9705784359 | Hyderabad, India | linkedin.com/in/repaka-sai-prakash

PROFESSIONAL SUMMARY

Azure DevOps Engineer with 4+ years of experience specializing in Microsoft Azure services, with proven expertise in designing, developing, and deploying cloud-based applications and infrastructure on Azure. Skilled in building and managing CI/CD pipelines using Azure DevOps and optimizing cloud solutions for performance, scalability, and operational efficiency. Proficient in release management across Dev, QA, and Production environments within Agile/Scrum delivery teams. Strong problem-solving abilities, excellent communication skills, and a collaborative approach to working with cross-functional teams in enterprise environments.

PROFESSIONAL EXPERIENCE

Azure DevOps Engineer

Jul 2022 - Present

Tata Consultancy Services (Client: Microsoft)

CI/CD Pipelines & Release Management

- Built, maintained, and troubleshooted 20+ CI/CD pipelines using Azure DevOps for automated deployments across Dev, PPE, and Production environments.
- Migrated legacy Classic Pipelines to YAML with reusable templates and multi-stage deployments, improving consistency by 40%.
- Automated deployments using PowerShell and release pipelines, reducing deployment time from 2 hours to 30 minutes.
- Managed Azure Repos (Git-based), branching strategies, and pull request workflows for 7+ codebases while enforcing change management practices.
- Collaborated within Agile/Scrum teams, participating in sprint planning, daily stand-ups, and retrospectives to deliver iterative releases.

Azure Infrastructure & Infrastructure as Code (IaC)

- Deployed and managed 50+ VMs, App Services, Function Apps, Azure SQL, and Key Vault across Dev, PPE, and Production for 9 applications.
- Developed Terraform configurations for consistent, repeatable provisioning and performed patching and optimization, achieving a 15% cost reduction.
- Configured networking (VNets, NSGs, Load Balancers) and VM Scale Sets for high availability.

Security Hardening & Compliance

- Managed secrets, certificates, and keys via Azure Key Vault with RBAC, performing quarterly rotations with zero lapses.
- Drove S360/SDL compliance (CredScan, CodeQL, AzTS, Component Governance), achieving a 100% compliance score.
- Resolved Azure Security Alerts and ensured SOX audit readiness and GDPR/DSR compliance within SLA.

Incident Management & Production Support

- Performed ICM triage, mitigation, and resolution, maintaining 95%+ SLA compliance for payroll-critical applications.
- Monitored service health via Azure Monitor and resolved 100+ production incidents annually.
- Supported payroll processing (regular and parallel runs), ensuring zero missed deadlines for 200K+ employees.
- Conducted BPRT/YERT and collaborated with engineering to reduce incident volume by 20%.

TECHNICAL SKILLS

CI/CD & DevOps: Azure DevOps, YAML Pipelines, Classic Pipelines, Azure Repos (Git)

Infrastructure as Code: Terraform, Automated Deployments

Azure Cloud: Virtual Machines, App Services, Function Apps, Azure SQL, Storage Accounts, Azure Monitor, VM Scale Sets, Azure AD, Recovery Services Vaults, Azure Data Factory (ADF), Azure Kubernetes Service (AKS)

Security & Compliance: RBAC, Key Vault, S360/SDL, CredScan, CodeQL

Monitoring: Azure Monitor, Application Insights, ICM, Log Analytics

Methodologies: Agile, Scrum

CERTIFICATIONS

- AZ-104: Microsoft Certified Azure Administrator Associate
- AZ-400: Microsoft Certified DevOps Engineer Expert

EDUCATION

B.Tech in Computer Science and Engineering (CSE), KL Engineering College

2018 - 2022
